

Boot Camp Project 2 Group Agreements

What is your project about?

We are going to be creating a Quarantine Book Store, where you will be able to search for books based on title, author, genre. You will be able to rent OR buy the book. We will have the quantity of that book that is available and the price to purchase and rent the book

Side note: may have audiobooks

What tech are you planning on using? (Libs, APIs etc)

Google Book API, HTML, Javascript, JQuery, CSS, Bootstrap, Ajax, MySQL,

What role(s) will everyone on the team hold (if working in a team):

Everyone will work together to complete all requirements; we will have one person share and all of us give input

How often will you have meetings? How long? (if working in a team):

we will use class time to work on the project, we will also use Thursday and Fridays to do work outside of class if needed.

How will you keep track of tasks?

Trello to keep track of tasks needing to be completed or in process

What if someone misses a deadline? (if working in a team):

We will take extra time outside of class to complete what needs to be done

What happens if someone misses a meeting? What is their responsibility? The team's responsibility? (if working in a team):

We will fill them in in slack and they can also view the trello board to see what work was done or needs to be done

How does each team member like to receive feedback? (if working in a team):

Don't wait, just say what's wrong, be honest

What if there is friction between members? How will you address it? (if working in a team):

Group meeting and air out the issues

Other Group Agreements:
